

Specifications

- 6000 m depth rated
- 1300 lbs. cutting force (initial)
- 2.98 / 2.36 lbs. weight (air/water)
- 7.12" x 3.00" x 1.85"
- Cable capacity up to 0.125" (3.18mm)
- 316 Stainless Steel Housing
- Up to 5 year deployment life

Features

- Burnwire activated
- Spring driven
- Corrosion resistant
- Reliable cuts
- Easily reloadable
- Stocked item

Description

The MCC-6000-BW Cable Cutter is a patented, lever-actuated cable cutter designed to operate at depths of up to 6000 meters and survive for up to 5 years. Providing over 1300 lbs. cutting force (initial), it can cut through both synthetic line and electrical cables. The cutter is configured to activate via Edgetech double wrap burn wires, which can be triggered from customer electronics or a COTS unit such as an Edgetech BRT6000. For installation, the cutter mounts to a customer structure with four #10 bolts.
